

Product information - Overview

UBS (CH) Equity Fund - Switzerland (CHF) P

Securities no.: 279176

Category profile

UBS Country & Regional Funds are geared towards investors who want to take advantage of opportunities in particular countries or regions. These funds allow for broad diversification. Again, UBS's proven research excellence is crucial here in ensuring optimal stock selection.

Fund description

- Actively managed equity portfolio that invests in Swiss shares.
- The fund is diversified across various sectors.
- Investment decisions are based on a disciplined investment philosophy and fundamental research.

Key benefits

- The fund draws on the knowledge of proven investment specialists based in Zurich.
- The fund managers can also tap into the knowledge and experience of a network of equity analysts around the globe.
- Investors benefit from a global investment platform of UBS Asset Management.

Risks

UBS Country & Regional Funds invest in equities and may therefore be subject to high fluctuations in value. For this reason, an investment horizon of at least five years and corresponding risk tolerance and capacity are required. As these UBS Funds pursue an active management style, each Fund's performance can deviate from that of its reference index. All investments are subject to market fluctuations. Every Fund has specific risks, which can significantly increase under unusual market conditions. The fund can use derivatives, which may result in additional risks (particularly counterparty risk).
